POB 4381  
No. Hollywood, CA 91617

Dear Earth First! Organizer(s),

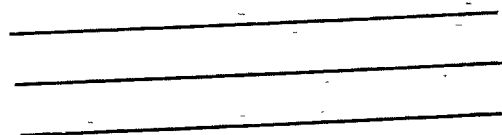

It has come to our attention that you are an Earth First! terrorist organization and are constantly waiting for the FBI (if you're lucky!) to knock at your door.

This kind of behavior is to be expected of terrorist organizations like yours, since we have been observing Earth First! groups like yours for some time. Not only have we been watching your group, but we also know and have distributed your phone number [(818)905-0583] to every organized hate group that could possibly have hostile tendencies toward ilk of your kind. No longer can sleazy terrorist groups like yours operate with impunity through the guise of anonymity. We know who you are, where you live, and continue to home in on you... but you don't know who we are. How does it feel, eco-freaks, to have the tables turned?

We've also got your "clandestine" publications which detail how to indiscriminately hurt, maim, and kill people who are involved in legitimate, legal activities. Rest assured, eco-freaks, that we shall not be indiscriminate in our actions against the spineless, invertebrate members of Earth First!. To the contrary, we will specifically hunt down each and every member like the terrorist organization you really are.

Sincerely,

Committee For The Death of Earth First!  
Brought to you by Fed Up Americans for Common Sense

Dear [Redacted]

This is in response to your letter dated June 19, 1990.

b6

We regret we cannot be of assistance to you. The Attorney General's legislative mandate is more limited than some people believe. There is no law authorizing the Attorney General to provide legal services to private individuals. In general, the Attorney General may provide legal advice, opinions, or representation to governmental entities and designated public officers within the State of California.

We suggest that you rely upon the advice of private legal counsel.

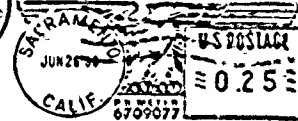

Very truly yours,

Luxemburgo, 25 de Julio de 1990

Sres.:

He recibido noticia por la prensa (periódico "CNT", España, de julio de 1990) de la campaña de acoso e intimidación que están sufriendo los opositores a la destrucción indiscriminada de bosques de robles en California y, en concreto, del atentado que hirió gravemente a Judi Bari y Darryl Cherney el pasado 24 de mayo.

El arresto e Interrogatorio de Darryl Cherney tan pronto como fue dado de alta del hospital, sin permitírsele antes contactar a su abogado o amigos, es un atropello a los derechos fundamentales. Asimismo, es irregular el hecho de que la policía no haya abierto una investigación sobre este asunto.

Por ello, y dentro de una campaña de solidaridad Internacional, pido la retirada de los cargos a los dos inculpados y la apertura de una investigación sobre este intento de asesinato.

Atentamente

Sirs:

(been made aware)  
I've received notification through the press  
(misleading)  
(newspaper "CNT" Spain July 1990) of the  
campaign of intimidation and harassment being  
suffered by the opponents of the indiscriminate  
destruction of the oak wood<sup>(s)</sup> forests in California,  
and specifically, of the attempted murder  
that seriously injured Judi Bari & Darryl  
Cherney on May 24<sup>th</sup>.

The arrest and interrogation of Darryl  
Cherney as soon as he was released from the  
hospital, without first allowing him to  
contact his lawyer or friends, is a violation  
of his fundamental rights. Likewise, it's  
unusual the fact that the police have not  
opened an investigation regarding this affair.

For this reason, and within a campaign  
of international solidarity, I request the  
withdrawal of charges of the two accused  
and the opening of an investigation  
regarding this attempted murder.

Sincerely

3rd July 1990

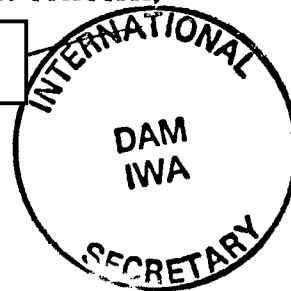

TO ALAMEDA COUNTY DISTRICT ATTORNEY,  
TO OAKLAND OFFICE OF THE FEDERAL INVESTIGATION

I am writing on behalf of the DAM-IWA in protest of the decision to arrest Darryl Cherney and the intention to arrest Judi Bari once she has recovered from hospital, following a bomb exploding in Bari's car during a tour of the San Francisco bay area.

This has been the second attempt in less than a year on these two union members life. It also follows dozens of death threats.

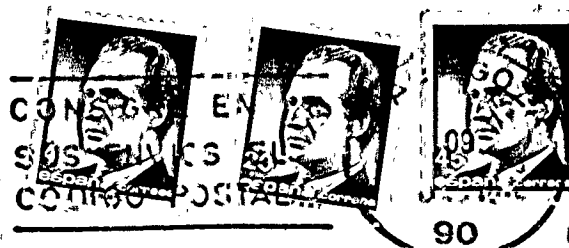

In light of this information, charges levelled against them, i.e possessions & transport of an explosive device, must be dropped and we demand a fair and full investigation into this attempted assassination.

Yours in very great concern,

Dear Sir,

I must strongly protest the arrest and detention of Judi Bari and Darryl Cherney, the Earth First! activists who were the victims of a bombing incident on May 24. The designation of Judi and Darryl as suspects in the possession and carrying of explosives is an obvious political decision intended to harass and discredit the Earth First! organization and its planned non-violent actions on the North Coast this summer.

b6  
b7C

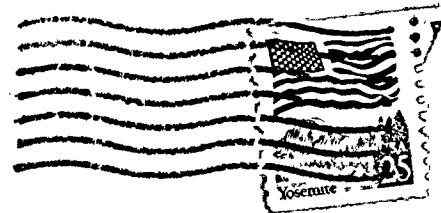

I worked with Judi Bari several years ago when she was living in Sonoma County and involved in the movement opposing U.S. policy in Central America. I can state unequivocally that Judi is thoroughly dedicated to non-violent activism in support of justice for all people and for our planet. Indeed, her commitment to non-violence and to human rights is what has brought her to be so intensely involved in political activism.

Judi's actions recently have only reinforced the obvious fact that she supports non-violent tactics. Both Judi and Darryl have consistently stressed to their audiences that violence must be met with non-violence. They have both made efforts to reduce tension and facilitate understanding. And, it should be especially noted, both have renounced sabotage tactics such as tree-spiking.

The setting of bail at the absurd level of \$100,000 is another absurd political decision intended to harass the victims. The characterization of these two as a "flight risk" is ludicrous. They have been completely open in their activities and have nothing to hide and nothing to run away from. The vindictiveness of the FBI in pressing for increased bail, and the acquiescence of Judge Wheatley in agreeing to it, are appalling.

I submit the following demands: 1) Judi and Darryl should be released immediately with all charges dropped; 2) FBI harassment of Earth First! must stop; 3) a full investigation should be implemented into the tactics of the Oakland Police and the FBI in this case; 4) authorities should begin a legitimate investigation into the attempted murder of Judi Bari and Darryl Cherney.

RE: EARTH FIRST MATTER

When the explosion occurred, one of the stations KRON or KTVU interviewed a witness driving a car or truck ahead of the Earth First vehicle. The driver, in his broadcast statement, said that he was driving along, the Earth first vehicle directly behind his vehicle. He said he began to make a phone call (presumably cellular phone) when he saw/heard the car behind him explode.

Over the weekend, on KTVU, an Earth First member identified on screen as "Sequoia" used the term "dynamite". This was the only person to ever mention an explosive by name, in any of the broadcast news accounts of the matter.

Around quarries, there are usually posted signs NOT to use radio transmitters in the area because of dynamite use and the danger of said explosive being set off via radio waves.

Since you probably do not watch all newscasts, I felt you should be aware of the above and may want to interview those witnesses further to aid in your investigation.

### CRIMINALS OR VICTIMS?

Judi Bari and Daryl Cherney have been arrested on charges of possession and transportation of explosives!

Guess what the evidence is against them? The bomb was placed, apparently, very close to the occupants of the car! So close, in fact, that the police claim they must have known it was there! It may have been placed under a huge pile of papers and posters and Earth First literature, etc. It may have been under the passenger seat of the car. Since it was so close, it is obvious to the authorities that Judi and Darryl were terrorists and were transporting this bomb to a target! The other absurd theory is that if this scenario isn't true, then they planted the bomb themselves in order to blow themselves up and become martyrs! What a perverse and totally untrue fabrication! How can it be possible that these harmless loving spirits, our friends, among the best of our community, be construed to be terrorists? They are accused of having no respect for life! These people see trees as living entities to be revered with tenderness and love! They are accused of running around with explosives???? They are our enemies??

Judi and Darryl were enroute to the University of California at Santa Cruz to talk to students. Their weapons are a guitar and a fiddle! They wanted to bring their vision to the campus. A vision of beauty. A vision of cooperation. They wanted to enlist the support and participation of the young of our country, those that have spirit and sensitivity. They wanted to bring the young people of our country to the woods to save trees! They wanted to continue the tradition of Mahatma Ghandi, of Martin Luther King. They wanted to help the earth heal itself. They wanted to bring people together. They wanted to increase the love we have for nature. They wanted to make the earth better, softer, more relevant and more beautiful. They are the best we have.

If there are criminals in this world, do you know who they are?

Dear Sir,

I am taking the unusual step of writing to you because of a recent newspaper article concerning the case of Darryl Cherney in which your address was mentioned. After reading of the attempt on Mr Cherney's life because of his union activity and the fact that he is being charged with 'possession and transport of an explosive device' I felt compelled to write and voice my concern at this state of affairs.

It seems that the bombing that took place on the 24<sup>th</sup> of May this year endangering the life of Darryl Cherney and his passenger Judi Bari was not the first attempt to injure them. Less than a year before this episode a car in which they were driving was hit by a timber lorry injuring three adults and four children.

In the light of this and the obvious dislike the timber industry has for their work I find it difficult to imagine why Mr Cherney is now being charged. I appeal to you to drop all charges against Mr Cherney and mount a full investigation with the aim of finding those who are guilty of what must amount to attempted murder.

I will attempt to follow this case in the media and I hope that justice is done by Darryl Cherney.

Thankyou for reviewing my letter of concern.

Yours

News of the attempted assassination of IWW activists Judi Bari and Darryl  
 Cherney has reached all over the world. The outrage is compounded by the  
 fact the state is blaming and prosecuting the victims for its own crimes.  
 We want to make our protests known, and demand that all charges be dropped.

In Poland we find incidents like this very ironic. They show that state  
 and corporate interests in the West will persecute and repress any meaningful  
 opposition, just as they have done in the East, Western governments'  
 talk about democracy and their care for the environment is bullshit!  
 And we will make that known to everyone here,

12th September, 1990.

Dear Sir / Madam,

News has recently reached us in Britain of the situation regarding Judi Bari and Darryl Cherney. We hear that during the process of their activities organising support for environmental activists and timber workers in northern California, not only have there been numerous death threats made to Judi Bari, but also two attempts made to take the lives of these two admirable people. The most recent of which seriously injured them both.

b6  
b7c

In spite of this it appears that the FBI, as an organisation entrusted to investigate such threats and murder attempts have consistently ignored the situation. In addition the fact that when released from hospital Darryl Cherney was arrested and interrogated, with the same intention for Judi Bari once she is well enough to be released, is most worrying. It is also very disturbing since they are obviously victims of a crime and not the perpetrators.

We therefore demand that all charges are immediately dropped and a thorough investigation into these attempted murders be carried out. We would also like to be notified of any decision made on June 18 concerning this case. Yours faithfully,

LORD'S AVENGER?!! CANT YOU

RE: [REDACTED]

Dear Mr. Held:

In accordance with your request of September 18, 1990, I turned over the threatening letter received in our office directed to [REDACTED] to Special Agent [REDACTED] of your Houston office. Agent [REDACTED] briefed our personnel on what to watch for in possible future communications and how to handle same.

As we discussed, this is the first communication from the Aids Action Army that we have received. We would appreciate any information that you may have regarding this group at your earliest convenience. As you may know, [REDACTED] Federated Development Company (privately held), MAXXAM Inc. (a public company listed on the American Stock Exchange) and Pacific Lumber Company, a wholly owned subsidiary of MAXXAM. [REDACTED] Kaiser Tech and Kaiser Aluminum. [REDACTED] continues to be a subject of newspaper articles, demonstrations and threats due to his position with Pacific Lumber and the environmental issues surrounding the timber industry. He also has been a constant target for attack by Earth First.

## LETTERS

### Evil lurks in Ukiah

To The Editor:

Planned (non) Parenthood

The very name should tip off anyone with any sense at all, to the evil sinister plans of this organization.

Planned Parenthood's real motives are to not make you a parent at all. They say it's a "parasite" in your body. The Supreme Court says, "Person does not apply to the unborn."

A noted abortionist says, "We know it's killing, but the state sanctioned it (abortion)."

Pro-life people believe conception begins at day one. We know the baby has his own body, own DNA and own blood type. What ever happened to basic morality and contraceptives. To date we have aborted 10 times the total number lost in all of our wars.

The name Planned Parenthood should cause all of us in Ukiah to shudder deep within our souls. They will be aborting your grandbabies and you won't even know it. Did you know they can abort a baby in the third trimester, that is up to 9 months. Did you know a teen-ager can be excused from school without parental knowledge to have a free abortion (paid for by you and me) and be returned to school, the parent none the wiser, unless any complications arise either physical or mental. Yet the school cannot give that same girl an aspirin.

They do the planning all right and line their pockets with your tax dollars. A free pregnancy test that costs less than a dime cost you and me over \$50. Can you imagine how much they charge us to abort another American?

We have a very fine pregnancy counseling center in Ukiah. They will give "real" free pregnancy tests and counsel people caught in a crisis pregnancy.

The personal devastation, guilt, remorse, shame and humiliation is very real and documented. We, as a nation and community must stop this holocaust. Let's not allow this evil in Ukiah with out raising so much as a little finger. The irony of the medical community doing all they can to save and help babies at one end of the medical building and carrying out (dead) aborted fetuses at the other end is as damning as calling an abortion mill, "Planned Parenthood."

Evil prospers when good men do nothing.

Pro-choice is no choice for the un-born. It has meant the death to 20 million so far.

Pro-life is life and health to both mom and baby.

Please help them every Friday at 3:30 in front of 620 S. Dora. (at a) non-violent protest rally.

My sympathy and overwhelming compassion goes out to those who have been or are involved in a crisis pregnancy. If God can forgive David of the Old Testament and call him "A man after my own heart" he can and will forgive any and all of us. Repentance and receiving God's gift Jesus Christ is the key, the only key I believe.

You are being targeted for your crimes committed during your duties as a member of the Board of Forestry and as a University professor. You cannot hide from the crimes you continue to commit. We hereby find you guilty of:

- \* Biased teaching of the complex Forestry issues.
- \* Corruption in the school and on the Board( although we cannot yet prove that you are receiving payments from the Timber industry we do have great suspicions and will continue to investigate)
- \* Signing the Forests Forever initiative a number of times to invalidate it.
- \* Failure to enforce the Forest practices Act of 1973 and failure to enforce the California Environmental Quality Act.
- \* Refusal to pay attention to or give due respect to members of the public during testimony.( a recent statement I quoted that you read the newspapers when individuals with a different perspective speak)

This is your last chance to change your ways:

- \* Enforce Forestry laws and Endangered Species Act.
- \* Ban logging in Ancient Forests
- \* End corporate influence of the Board

If you do not follow our advice we will see to it that your positions on the Board and in the classroom are terminated.
